Need extra improvement in project

Need more practical exposure

Overall good

Everything is good

None

It's good

NA

Nice

Use different activities in class – videos, discussions, lecture, groups, guest speakers, pairwork. Use different assignment methods – written, oral, projects, etc. – so as to engage as many ways of learning as possible (e.g., visual, auditory). Give students a real-world problem to solve that has multiple solutions.

Need more practical sessions for mathematics

Good educated

Good and keep it up

Please to add LAW

Need library hours

Way of Teaching and importing the valid knowledge to the students is to be very appreciated one.

Practical and technical skill to be improved

Smart class learning need to improve for all classes

Offer regular professional development workshops for teachers on the latest educational technologies and teaching methodologies. And also introduce some new subjects

Everything that implemented in this year is soulfull and our juniors are gave a feedback in very good manner

Nothing to suggest.

Provide quality education with practical experience

Try to good give more knowledge through proper guidance and communication to the students providing more practical knowledge to the students .Strict examination rules.

Give trustful Placement. Don't give fake hope

All good 👉

Try to reach every student and ask for their doubts.

Well and good 👉😊

Ok..but much more

Teaching learning is good

Implement more in practical way

NILL

Very nice

Kindly conduct practical Orianted classes and PPT classes

Wounderful Experience

Easy to leaning

All are well in our college

Need more practical way of teaching

21ucdv020@vicas.org

Give more opportunities to increase our knowledge

Everything is fine and good

Industrial visit

The content for the syllabus is needed for the students as notes

Nothing all are good

Improvement in theory class

Please teach some extra courses like typing, shorthand, coe ...

Have to give more training for placement students

Complete the syllabus before the exam. Teaching in the way of english not in the bilingual language.

Help to Improving students skills for other activities like technical skills

Group studying will somehow improve the relationship among students

Improve extracurricular activitiee

Very excellent

I think we need to concentrate more practical & skill related curriculum. Thank you for all teachers & non teaching members for their dedicated work towards students community.

So far so good

Allow the students for extra curricular activities.

நன்றி

Please give time for sports

Overall teaching and learning is good

Need more field exposure

Great experience!.....

Give more practical session for students and improve placement and skills

Focus on Professional courses

Good institute. Teaching very good

Need more improvement

Improve the syllabus more practical and knowledge oriented

I have gained excellent experience in vicas and it help to improve my skills

To conduct workshops,seminars,conferences to develop students knowledge and learning

Ppt

english communication have to improve among students

Teachers need to give seminar to the students to improve their knowledge

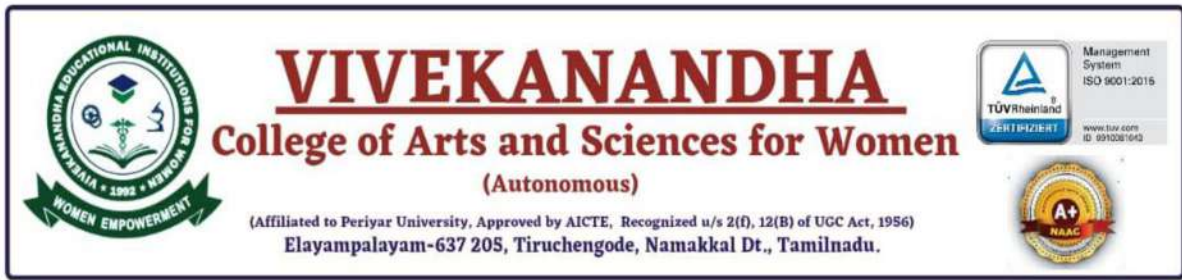

Curriculum can improve the teaching techniques and update contents frequently.

Alumni Feedback on the Curriculum Academic Year 2023-24

The following suggestions were made by the alumni to improve the curriculum:

- Ensure regular updates to curriculum content to align with modern industry needs and global standards.
- Increase practical sessions across all disciplines, including mathematics and technical fields.
- Offer industry-oriented training and conduct more field visits to expose students to real-world scenarios.
- Incorporate diverse teaching approaches such as videos, discussions, group work, guest speakers, and real-world problem-solving exercises.
- Focus on adding professional courses and certifications to increase employability.
- Enhance opportunities for extracurricular involvement, including sports, group activities, and skill-building workshops.
- Promote a balance between academics and extracurricular activities to ensure holistic student development.
- Increase industrial visits and exposure to practical applications of theoretical knowledge.
- Provide more time for practical and field-oriented activities.
- Encourage seminars and presentations by students to build confidence and knowledge.
- **Conclusion**

Alumni feedback highlights the need for a more practical, skill-based, and industry-relevant curriculum. While the current teaching and learning experience is appreciated, adopting these suggestions will further enhance the educational quality and better prepare students for academic and professional success.
