3.4.1.3. PLAGIARISM CHECK THROUGH SOFTWARE

Plagiarism is an illegal act of copying or stealing someone else's words or ideas and passing them off as one's own work. Every plagiarism act will carry serious consequences and result in a poor-quality research paper. It will also degrade the research and development of the country.

To prevent such illegal acts, the college follows certain procedures and norms.

1. The research scholars are motivated and encouraged to express their research contributions using their own ideas and words.
2. Secondly, we also use free online anti-plagiarism tools such as DupliChecker, Copyleaks, Paper Rater, Plagiarism Checker, etc., to avoid plagiarism.
3. Thirdly, following the UGC norms, for all research documentation, it is mandatory to produce the Research Analysis Report from the Periyar University which uses authorized anti-plagiarism software such as URKUND.
4. Our parent university (Periyar University) provided us with a username and password to access the URKUND plagiarism-checking software.
